

Hit The Hat!

Roll the dice...
grab the right hat!

A brilliant, fun simple to learn game for the whole family!

An exciting challenging game for the whole family that develops visual perception skills, hand/eye coordination and intuitive thinking.

GAME OF THE YEAR 2011

How? It's simple:

Players take turns to roll the three dice together. The faces on top of the three dice determine which hat needs to be found;

The first dice indicates the type of hat, which needs to be found, the second dice indicates the pattern of the hat and, the third dice indicates the border color of the hat. No matter what faces the three dice display, only one hat matches that combination – and one only! Be the first player to spot the hat, which perfectly matches the dice faces, use your 'snatcher' to grab the hat before your opponent(s) and shout Hit The Hat! to win a token! The first player to get six tokens is the winner.

Beginners version:

Here is a simpler way of playing Hit The Hat!, suitable for younger players! Use just one or two of the dice to make it easier to find either one matching hat ... or all of the matches! As the players get more confident, you can add another dice!

In the box:

- 36 hats cards in a variety of shapes & Colours
- 4 Plastic Snatchers
- 3 enlarged dices (35mmX35mm) + labels
- 20 tokens

Ages: 4-12

No. Of players: 2-4
